In G.O. Ms. No. 1599 Development dated 31.3.48, the Government sanctioned the purchase by the Joint Director of Agriculture 100 oil engines and directed that until further orders, no units should be sold to the ryots outright as they should be supplied on hire to a maximum number of users in connection with the drive for the production of short term food crops. The Joint Director of Agriculture has now proposed that he may be permitted to the units to the ryots who have asked for their sale as they are satisfied with their performance. In support of his proposal, he has cited the suggestion of the Cabinet Committee for Food Production at its meeting held on 13.8.1949 that the outright sale of the pumpsets on hire might be considered and has stated that the departmental stocks depleted by such sales could be made good by fresh purchases.

2. In the circumstances reported by the Joint Director of Agriculture, His Excellency the Governor of Madras accepts his proposal and directs that, if there is demand from the

ryots for sale of oil engine pumpsets available with the Agricultural department, 25% of the receipts be reserved for outright sale to ryots who are really in need of pumpsets for genuine agricultural purposes and that the balance of 75% may be kept for supply to the ryots on hire for genuine agricultural purposes. The sales shold be to ryots who genuinely require them and should be made in accordance with a priority list of applicants to be maintained for the purpose.

3. The Joint Director of Agriculture is requested to try this arrangement for a period of one year to begin with and to submit a report to the Government a month before the end of this period with full factors in order to see whether the arrangement has worked satisfactorily in practice and whether it should be continued.

(By Order of His Excellency the Governor)

N. Murugesa Mudaliar,
DY. SECRETARY TO GOVERNMENT.
